WORK EXPERIENCE

Bluelabs

Sep 2020 - March 2021

Remote Full-stack Developer, Full-time, Qatar

Have been working with Bluelabs startup for 7 months, In a remote position as a full-stack developer to build their first product which is Nardine. Nardine is a worldwide medical & healthcare consultation platform. Many features and systems were built in this product such as Real-time chat and notifications, Appointments management, Plans & Packages, Data analytics, and much much more.

Bnaturalia

2019 - Now

Remote Full-stack Developer, Part-time, Full-time(2021)

Started a part-time job for Bnaturalia in 2019 to build several tools such as Stock Management App for an enhanced fulfillment process, Product Management system. In 2021 shifted to a full-time job to revamp the company's products, Developed a new platform that contains custom eCommerce, Appointments, and Academy features for courses. The platform is backed up with an advanced server-side & admin panel that controls and analytics all the application systems.

Ralukat Labs

2018 - 2019

Remote Full-stack & Desktop Developer, Romania, Full-time

In 2018 provided my services in a remote position for Ralukat Labs an EU private organization for online services. In this period gained experience in desktop development and got the chance to built and maintain several variant web and desktop apps for the company's clients.

Arcan Games

2013 - 2018

Co-Founder, Community Manager, Full-stack Developer, Full-time

- After years of exploring the MMO games industry and development, I've started with a Saudi partner an MMO online games company. Besides being a co-founder I was responsible for the community management and as our team and company grew my responsibilities grew to become Community Manager and Team Leader. Along with recruiting, training, and supervising multiple teams in different fields.

- In 2016 started working as a full-stack developer for Arcan after developing my programming skills for years, I've built several web apps and tools that supported the team, players, and the company which helped us to officially offer our games and services across all the Arabic region.
